## SUMMARY

**Penetration Tester** with hands-on experience across web, network, Active Directory, and mobile security assessments. **OSCP+, CRTP, and eWPTX certified**, plus five additional certifications in exploit development, digital forensics, and incident response. Independent HackerOne bug bounty researcher since Feb 2024. Ranked 1th on CyberHub and Top 20 nationally in Saudi Arabia; **Black Hat MEA CTF qualifier (2024, 2025)**. Seeking remote penetration testing roles.

## EDUCATION

**Bachelor's Degree in Information Security**, University of Hail

06/2026 | Hail, Saudi Arabia

## EXPERIENCE

### Penetration Tester — Infratech Co (May 2025 – Jun 2026)

- Conducted web application, network, and Active Directory security assessments across enterprise environments.
- Identified privilege escalation paths, credential exposure risks, and misconfigurations affecting domain security.
- Simulated adversarial techniques including Kerberoasting, NTLM relay, and lateral movement scenarios.
- Produced technical reports with CVSS scoring, MITRE ATT&CK mapping, and remediation recommendations.

## LEADERSHIP & VOLUNTEERING

### Google Developer Student Club (GDSC), Events Management Team Member

09/2023 – 08/2024

Co-organized and managed logistics for tech events, workshops, and hackathons to foster a campus developer community. Collaborated with cross-functional teams to coordinate schedules, speaker sessions, and venue setups for 5+ major events.

## TECHNICAL SKILLS

- **Active Directory Security:** Internal and external Active Directory penetration testing, attack path analysis, enumeration, Kerberoasting, NTLM relay, Pass-the-Hash, privilege escalation, lateral movement, pivoting, tunneling, and post-exploitation using BloodHound, Impacket, NetExec, Metasploit, Nessus, and Nmap.
- **Web Application Security:** Security assessments based on the OWASP Top 10, including authentication and authorization testing, IDOR, XSS, SQL injection, SSRF, CSRF, API security testing, business logic testing, and vulnerability validation using Burp Suite Professional.
- **Mobile Application Security:** Android application security assessments, including reverse engineering, static and dynamic analysis, SSL pinning bypass, API interception, and mobile OWASP testing using Frida, MobSF, JADX, APKTool, Burp Suite Professional, and Android Debug Bridge (ADB).

## ACHIEVEMENTS

- Ranked among the Top 20 **CyberHub** participants in Saudi Arabia.
- Qualified for **Black Hat MEA CTF Finals (2024, 2025)**.
- **Winner** – AJA CTF Championship.
- **Second Place** – University Innovative Technologies Competition.

## CERTIFICATIONS

- **OSCP**  / **OSCP+**  - Proficient in real-world penetration testing, and post-exploitation on Windows and Linux systems.
- **CRTP**  - Advanced Active Directory attacks: Kerberoasting, lateral movement, privilege escalation
- **eWPTX**  - Advanced web application exploitation: bypassing filters, chained vulnerabilities.
- **eCPPT**  - Full-scope penetration testing, privilege escalation, and exploit development
- **eCDFP**  - Disk and memory forensics, log analysis, and incident response
- **eCIR**  - Threat detection, containment, and mitigation of cyber incidents
- **CompTIA Security+** - Foundation in network security, cryptography, IAM, and risk management

## LANGUAGES

- **Arabic**
- **English** (IELTS 6.5)
